

WHAT WE OFFER

The Parking Permit Program provides access to designated parking spaces in lots across the province, for individuals who have difficulty walking more than 50 meters.

THE PROGRAM

Parking permits are available to individuals who require the full-time use of a mobility aid such as a wheelchair, walker, cane or crutches. Temporary Permits are also available for individuals who are experiencing temporary mobility challenges. Documentation from a health care professional is required in order to qualify for a Permit.

**For people with a permanent disability, a Permit is valid up to three years.
You do not need to own a vehicle to be eligible.**

EASILY APPLY OR RENEW ONLINE

Applications require information from a healthcare provider to confirm eligibility for a permit.

Please do not initiate the application yourself, your primary health professional will do so via our online platform.

As a Parking Permit holder, responsibilities include ensuring your Permit is used properly. Download the Permit Holders' Responsibilities PDF from the website and familiarize yourself for the best use of the Permit.
